

FLOJET'S NEW AIR OPERATED DOUBLE DIAPHRAGM IS TRULY... ONE OF A KIND.

NOW WITH VITON®

- The New Flojet G57 Series Model is *The Ultimate* Air Operated Double Diaphragm Pump.

FLOJET

Designed for *ultimate* performance and reliability.

The Unique Shuttle Valve creates the ultimate **One of A Kind** Performance & Reliability. It combines a long life ceramic slide valve with a unique spring design that is stall resistant.

AIR OPERATED DOUBLE DIAPHRAGM PUMP

FLOJET G57 SERIES

Flojet has accomplished the **ultimate** in small air operated double diaphragm pumps. The Model G57 is designed to be the **ultimate** in performance and reliability. Our robust design combines innovative features and relentless testing to offer a pump that has a long, trouble free service life.

The pump incorporates all the great features and benefits you expect with Flojet products—and now it's fitted with Viton.

The uniquely designed shuttle valve, check valves, and its high performance capabilities have been combined to accomplish the **ultimate** in small air operated double diaphragm pump technology. The Model G57 Pump can supply up to 7.0 GPM (26.5 l/min.).

The high air or CO₂ inlet pressure capability makes it the **ultimate** pump that delivers fluid at the needed flow and pressure.

The Model G57 is "**The Ultimate**" in small air operated double diaphragm pump technology.
